CERTIFICATIONS

Confluent Certified Developer for Apache Kafka July 2025

Confluent Certified Administrator for Apache Kafka December 2024

WORK EXPERIENCE

Associate Consulting Engineer January 2025 – Present
Psyncope Technologies Brea, CA (Remote)

- Supported on-call operations for a low-latency, on-premises **Multi-Region Kafka Cluster (MRC)**, participating in **Confluent Platform** upgrades via **Ansible** and providing **P1/P2** incident triage, including broker performance, and misconfigurations
- Developed **producer** and **consumer** for a customized **Confluent Kafka** library for client needs
- Deployed and designed **TIBCO Rendezvous** Network Service on **Kubernetes** including a high level diagram and **Operator** based **Custom Resources** to support on-premises to cloud communications

Software Developer May 2021 – August 2022
Ontario Ministry of Children, Community and Social Services Toronto, ON

- Developed customized **SharePoint** site with **SharePoint Framework (SPFx)**, and **React** ensuring compliance with **Web Content Accessibility Guideline (WCAG)**, enhancing site usability
- Automated a client's end-to-end workflow across **MS Forms**, **SharePoint** and **Power Automate**, replacing manual data entry with automated data entry and email notification
- Modernized team tracking ticket system using **Power Automate**, **MS Forms** and **SharePoint**, substantially reducing task assignment and data input time in half

PROJECTS

Call Signs Game - [Website](#) March 2024 – Present

- Built a word game with **Express** and **REST** calls, generating and validating words against stemmed/pluralized user input with real-time scoring via **WebSockets**
- Designed frontend with **Shadcn**, **Tailwind** and **React**, featuring a vertical carousel for each Game phase, with a progress slider

Book Review Site - [Website](#) December 2019 – January 2020

- Handled authentication and session management with **Flask** and **SQL**, integrating OpenLibrary **REST API** for book searching
- Stored and displayed user comments and ratings in **postgreSQL** database - displayed user events through **SQL** joins on account page

EDUCATION

Bachelor of Science, Computer Science June 2023
Toronto Metropolitan University (formerly Ryerson University) Toronto, ON
